

SURVEYOR'S NOTES:
The surveyor's report accompanying this plan is made a part of the survey. All iron pins set are 45 rods marked with a plastic surveyor's cap (Coffin RLS #85). All directions are magnetic 1988.
The bearings and distances shown are tie lines between the iron pins. The stone walls and barbed wire fences are the observed boundary lines.
The Vigue Road was established as 4 rods wide (33' from centerline). Bearing and staking to create a common boundary between the surveyed parcels and the right-of-way of the Vigue Road.
